Flu	Influenza							

\* If age 4 years and fulfills Requirements for Pre-School & Kindergarten, check BOTH Boxes C and D.

# **Immunization**

## Non-Medical Exemption Form (Religious and Personal Belief)

Vaccines are one of the greatest public health achievements of the past century and save an estimated 3 million children's lives every year. The Colorado Department of Public Health and Environment strongly supports vaccination as one of the easiest and most effective tools in preventing diseases that can cause serious illness and even death. For nearly all children, the benefits of preventing disease with a vaccine far outweigh the risks. Declining to follow the advice of a health care provider, or public health official who has recommended vaccines may endanger an unvaccinated child's health and others who come into contact with him/her. Some vaccine-preventable diseases are common in other countries and unvaccinated children could easily get one of these diseases while traveling or from a traveler.

Colorado law C.R.S. § 25-4-902 requires all students attending any school in the state of Colorado to be vaccinated against certain vaccine-preventable diseases as established by Colorado Board of Health rule 6 CCR 1009-2, unless an official exemption form is filed. This law applies to students attending child care facilities licensed by the Colorado Department of Human Services, public, private and parochial kindergarten, elementary and secondary schools through 12<sup>th</sup> grade, and colleges or universities. Prior to kindergarten, an official non-medical exemption form must be filed each time a student is due for vaccines according to the schedule developed by the Advisory Committee on Immunization Practices. <sup>1,2</sup> From kindergarten through 12<sup>th</sup> grade, an official non-medical exemption form must be filed every year during the student's school enrollment/registration process<sup>1</sup>. **Students with an exemption may be kept out of child care or school during a disease outbreak**.

Please complete all required fields below; incomplete forms will not be accepted. All fields are required unless noted optional.

<sup>&</sup>lt;sup>1</sup> Colorado Board of Health rule 6 CCR 1009-2: http://www.sos.state.co.us/CCR/GenerateRulePdf.do?ruleVersionId=6437&fileName=6%20CCR%201009-2.

<sup>&</sup>lt;sup>2</sup> 2016 Recommended Immunizations from Birth through 6 Years Old: <a href="www.cdc.gov/vaccines/parents/downloads/parent-ver-sch-0-6yrs.pdf">www.cdc.gov/vaccines/parents/downloads/parent-ver-sch-0-6yrs.pdf</a>. Based on this schedule, a non-medical exemption form would be submitted at 2 months, 4 months, 12 months and 18 months of age.

#### Vaccine Preventable Disease Information

The information provided below is to ensure parents/guardians/students are informed about the risks of not vaccinating.

Diphtheria, tetanus, pertussis (DTaP, Tdap) - Unvaccinated children may be at increased risk of developing diphtheria, tetanus and/or pertussis if exposed to these diseases. Serious symptoms and effects of diphtheria include heart failure, paralysis, breathing problems, coma, and death. Serious symptoms and effects of tetanus include "locking" of the jaw, difficulty swallowing and breathing, seizures, painful tightening of muscles in the head and neck, and death. Serious symptoms and effects of pertussis (whooping cough) include severe coughing fits that can cause vomiting and exhaustion, pneumonia, seizures, brain damage, and death. For more information: <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/dtap.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/dtap.pdf</a> and <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/dtap.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/dtap.pdf</a>

Haemophilus influenza type b (Hib) - Unvaccinated children may be at increased risk of developing invasive Hib disease if exposed to this disease. Serious symptoms and effects include bacterial meningitis, pneumonia, severe swelling in the throat, permanent neurologic damage including blindness, deafness, and mental retardation, infections of the blood, joints, bones, and covering of the heart, and death. For more information: http://www.cdc.gov/vaccines/hcp/vis/vis-statements/hib.pdf

Hepatitis B - Unvaccinated children may be at increased risk of developing hepatitis B if exposed to this disease. Serious symptoms and effects include jaundice, life-long liver problems such as liver damage, scarring, liver cancer, and death. For more information: <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/hep-b.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/hep-b.pdf</a>

Inactivated poliovirus (IPV) - Unvaccinated children may be at increased risk of developing polio if exposed to this disease. Serious symptoms and effects include paralysis of muscles that control breathing, meningitis, permanent disability, and death. For more information: http://www.cdc.gov/vaccines/hcp/vis/vis-statements/jpv.pdf

Measles, mumps, rubella (MMR) - Unvaccinated children may be at increased risk of developing measles, mumps, and/or rubella if exposed to these diseases. Serious symptoms and effects of measles include pneumonia, seizures, brain damage, and death. Serious symptoms and effects of mumps include meningitis, painful swelling of the testicles or ovaries, sterility, deafness, and death. Serious symptoms and effects of rubella include rash, arthritis, and muscle or joint pain. If a pregnant woman gets rubella, she could have a miscarriage or her baby could be born with serious birth defects such as deafness, heart problems, and mental retardation. For more information: http://www.cdc.gov/vaccines/hcp/vis/vis-statements/mmr.pdf

Pneumococcal conjugate (PCV13) or polysaccharide (PPSV23) - Unvaccinated children may be at increased risk of developing pneumococcal disease if exposed to this disease. Serious symptoms and effects include pneumonia, lung infections, blood infections, meningitis and death. For more information: <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv13.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv13.pdf</a> and <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv13.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv13.pdf</a> and <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/pcv.pdf</a>

Varicella (chickenpox) - Unvaccinated children may be at increased risk of developing varicella if exposed to this disease. Serious symptoms and effects include severe skin infections, pneumonia, brain damage, and death. For more information: <a href="http://www.cdc.gov/vaccines/hcp/vis/vis-statements/varicella.pdf">http://www.cdc.gov/vaccines/hcp/vis/vis-statements/varicella.pdf</a>

Required Vaccines for School Entry - Place an "X" next to each vaccine you are declining.

Diphtheria, tetanus, pertussis (DTaP)	Inactivated poliovirus (IPV)
Tetanus, diptheria, pertussis (Tdap)	Measles, mumps, rubella (MMR)
Haemophilus influenza type b (Hib)	Pneumococcal conjugate (PCV13) or polysaccharide (PPSV23)
Hepatitis B	Varicella (chickenpox)

I am the parent/guardian of the above-named student or am the student himself/herself (emancipated or over 18 years of age) and am declining the vaccine(s) indicated above due to a religious or personal belief that is opposed to vaccines. The information I have provided on this form is complete and accurate.

- I may change my mind at any time and accept vaccination(s) for my child/myself in the future.
- I can review evidence-based vaccine information at <a href="https://www.colorado.gov/cdphe/immunization-education">www.colorado.gov/cdphe/immunization-education</a>, or <a href="https://www.lmmunizeforGood.com">www.lmmunizeforGood.com</a> for additional information on the benefits and risks of vaccines and the diseases they prevent.
- I can contact the Colorado Immunization Information System (CIIS) at <a href="www.ColoradolIS.com">www.ColoradolIS.com</a> or my health care provider to locate my child's/my immunization record.<sup>3</sup>

Lacknowledge that I have read this document in its entirety.
